Better Benefits down the road.

The Retention and Rewards Program was created to give independent contractors long-term benefits similar to those in a retirement plan. Under the administration of UBS Paine Webber, independent contractors may earn investment returns on contributions made entirely by Prime and/or Success Leasing.

Distribution Example

If you begin working with Prime when you are 32 years old, lease a truck with Success Leasing, and continue to do so until retirement at age 65, you could have a total benefit of more than \$250,000 (if taken in annual installments over 3 years, assuming an 8% return).

Plan Design

- Eligibility
Independent Contractors with one year of service with Prime
- 100% Vesting 10 years after enrollment
- Contributions
Prime Inc. - \$1,000 annually
Success Leasing - \$500 annually, with lease agreement

Payment Options

- Lump Sum
- Installments up to 3 years

Choose from three individual account options.

- Large Cap S&P 500 Index Division
- Asset Allocation Division
- Prime Rate + 1% Interest Variable Rate Investment (8% Cap)

It's simple. Designate your investment option(s), beneficiaries and payment terms when you complete your plan adoption agreement.

Be sure to complete the plan adoption agreement as soon as you are eligible; otherwise, all funded benefits will be held at value—that is, no growth—until an investment option is chosen.

If you have any questions call **1.800.331.0005**.
